

WHAT IS COMPOSTING?

Composting is the slow, natural decomposition of organics such as food waste. Microorganisms break down this material into a nutrient-rich soil amendment that can be used to replenish soils naturally.

WHAT ARE THE BENEFITS?

- **It cuts down on trash and expenses.** Horry County residents throw away more than 70,000 tons of food scraps each year, making up one quarter of all the garbage collected. Composting saves space and taxpayer money needed for disposal in landfills.
- **It combats climate change.** Food waste recycling will help reduce greenhouse gas emissions from landfills and protect our air and water from pollution to fight climate change.
- **It protects against flooding.** Composting nourishes soil for healthier parks and gardens and increases stormwater absorption capacity.
- **It can save plants and animals.** Composting reduces the need for expensive and polluting chemical fertilizers, makes plants healthier, and can be used without harming wildlife or ecosystem health.

HORRY COUNTY COMPOSTS PILOT PROGRAM

COMPOST YOUR FOOD SCRAPS

During this pilot program residents can bring food scraps to either of the recycling centers below for **FREE**. These scraps are then sent to the Horry County Solid Waste Authority (HCSWA) Compost Facility to be recycled into compost.

Horry County Landfill Recycling Center

1886 Highway 90,
Conway

**OPEN Saturday-Sunday
from 7 AM to 7 PM**
(except holidays)

Carolina Forest Recycling Center

800 International Drive,
Myrtle Beach

**OPEN Sunday 1 PM to 7 PM,
Monday-Wednesday and
Friday-Saturday, 7 AM to 7 PM**
(except holidays)

The pilot program will run through December 31, 2023.

ITEMS ACCEPTED

- ✓ **Fruits & Vegetables**
- ✓ **Bread, Dough, Bakery Items, Pasta & Grain**
- ✓ **Coffee Grounds & Tea Filters**
- ✓ **Compostable Liquids** (e.g., water, juices in small amounts)
- ✓ **Cooked Meats, Fish, Bones & Shells***
- ✓ **Dairy Products*** (e.g., milk, cheese, yogurt)
- ✓ **Food-Soiled Paper** (e.g., paper bags, paper towels, napkins, waxed cardboard boxes*)
- ✓ **Processed Foods** (e.g., pizza, cereal, chips, crackers, cookies, cakes, plate scrapings)

ITEMS NOT ACCEPTED

- ✗ **Raw Meat** (e.g., beef, poultry, pork, seafood)
- ✗ **Plastic Items** (e.g., bags, dishes, utensils, cups, Styrofoam)
- ✗ **Small Items** (e.g., rubber bands, twist ties)
- ✗ **Chemical Cleaners**
- ✗ **Non-Food Items** (e.g., wood, metal, glass, ceramics, pet droppings, yard debris)
- ✗ **Fats, Oils, Grease or Non-Compostable Liquids** (e.g., vegetable oil, lard)

* These items are accepted in this program, but **ARE NOT RECOMMENDED** for backyard composting. *Continued on back*

HOW TO STORE FOOD SCRAPS

You can store food scraps in almost any reusable container with a tight-fitting lid. You also can store them in the freezer or refrigerator.

HELP PREVENT CONTAMINATION!

Contamination is a major challenge with any compost program because it is not possible or safe to have staff sort through piles of food scraps removing items that don't belong. Preventing contamination on the front end helps to ensure the final product is free of inorganic materials and is safe to use.

Unfortunately, if any food scrap carts are contaminated with items that can't be composted, the whole cart must be disposed of in the garbage. Know what goes in and what stays out. **Remember, when in doubt, throw it out!**

DROP IT OFF

You can drop off your compostables as often as you like, but once a week is recommended. Use your freezer to store scraps for longer periods of time in between drop-offs. The Landfill Recycling Center is open Saturday and Sunday from 7 AM to 7 PM. The Carolina Forest Recycling Center is open Monday through Wednesday, Friday and Saturday 7 AM to 7 PM, and Sunday 1 AM to 7 PM. These centers are closed on holidays.

HOW TO PARTICIPATE: STEP-BY-STEP

1 COLLECT food scraps in a sealed container or store in a freezer.

2 TAKE your food scraps to the Landfill Recycling Center or the Carolina Forest Recycling Center.

3 RINSE the container. Repeat!
